Spanish (Native), English (Fluent), Italian (Basic)

WORK EXPERIENCE

Junior Software Engineer (Lloyds Banking Group)

Nov 2023 – Current

Successfully completed a rigorous 13-week Full-Stack boot camp program in which I acquired great understanding in various technical domains including Full-Stack Development, Cloud Fundamentals, and DevOps practices. During this learning journey, I actively demonstrate my ability to construct full-stack application by participated in Teams Projects:

Real Estate application: Agent application that caters individuals interested in buying, selling or renting properties. This website functionality to add, edit, remove properties was using the CRUD method. Also developed a property filter and a booking system where you can select a property and a date/time to book appointments. My role in this project was focus in front-end (User Interface, Responsive Desing, User Experience) and Testing (Selenium automation testing).

Shopping Cart: Fully modernised a Legacy Application written in Java using React and Spring Boot. Developed a full stack E-commerce website with functionality to register different users, complete stock management using CRUD method and a shopping cart system connected to a Database (SQL). My role in this project was focus in in front-end (User Interface, Responsive Desing, User Experience, Accessibility, Product display, Cart Interaction) and integration with Backend.

Senior Customer Advisor AOC (Lloyds Banking Group)

Oct 2020 – Nov 2023

Reviewed and processed business banking applications adhering to the regulatory requirements while maintaining excellent rapport and aligning with Lloyds Banking Group's values.

High Risk Champion: With meticulously attention to detail, checked applications with High and Very High-Risk levels of Due Diligence (EDD) before fully opening Business Accounts. Ensuring compliance was met at all times and minimising risk exposure.

Quality Assurance Representative: Monitors and provides feedback to colleagues impacted during account openings. Conducts Fountain navigation sessions to prevent future failures.

Subject Matter Expert (SME): For colleagues, providing training and guidance on account opening procedures, regulatory compliance and customer service best practices.

Pack Checker: Ensures accuracy and feasibility of applications for new starters.

Spanish to English Document Translator: Performs translations for relevant documents in the AOC department.

Coaching Hub: Provides accurate information and solutions to new starters' inquiries.

Receptionist (Intercontinental - IHG)

Jun 2019 – Oct 2020

Team Leader: Trained new team members and ensuring brand standards were met. Maximized revenue through upsells of hotel facilities, room categories, and the InterContinental Ambassador Program. Anticipated guest needs and supports colleagues to achieve IHG loyalty recognition scores.

Personal Achievements: Awarded "Employee of the Month/Exceptional Service" in March 2020.
